Cessation of Temperature Screening at Campus Entrances

Dear Members of the University,

In view of the easing epidemic situation and to alleviate congestion, temperature screening will be ceased at the North and South Gates of our campus as from 1st March, 2021. We will maintain the Remote Fever Self-checking Stations in Atrium, UG/F of CYT Building and LSKBB lobby.

The University will monitor the situation and may reinstate the temperature screening at North / South Gate if necessary.

Thank you for your attention.

Kind regards,

Campus Management Office
